MASSAGE ROOM SANITATION AND SAFETY PROTOCOLS

SAFETY

Your safety is our first priority. We are taking care that all our sanitation protocols are being implemented. Each of these surfaces is cleaned with our approved products after each treatment.

SANITATION CHART

- Head rest
- Table
- Massage bottle
- Table Leavers
- Rolling Chair
- Room chair
- Patient Clothing tote
- Door handle
- Sheets - washed after every use
- Blanket - washed after every use

HAND WASHING PROTOCOLS

- Before greeting client, therapist will wash hands, therapist will put on mask, therapist will wash hands.
- After initial discussion of treatment therapist will leave the room, opening and closing door with barrier, and wash hands.
- After treatment is done therapist will use a barrier such as a tissue, to open and close door, and wash hands.
- Once client is ready, therapist will open the door for client using barrier and client can then sanitize hands.
- Once client is gone, therapist will take off and discard mask and wash hands.

BATHROOM

The bathroom is fully sanitized after each use using a bleach solution.

- Toilet handle
- Taps
- Door knobs
